Reggio di Calabria, Italy, December 29.—A fierce fire, which is believed to be still raging, has destroyed the wooden buildings around the harbor at Mesina. This word was brought here to-day by boat. All telegraphic and telephonic communications with Messina have been interrupted.

Among the burning buildings are the post-office, the telegraph office and the railway station. When the boat was dispatched from Messina the fire was making rapid progress. Troops had been called out in an effort to keep the flames from spreading to all parts of the town. No fear was entertained at that time for the American quarter, which is about a mile distant from where the fire started.

West Union, O. December 29.—Seventy-three more indictments were returned to-day by the grand jury which is probing the selling of votes in this, Adams county, under the direction of Judge A. Z. Biair. Seventy persons were arraigned, making the office of Judge and take on board the wounded of General Navairo's treops. These have received only the crude attention of a field hospital since the fights at Cerro Prieto, three weeks ago, and at Pedernales and Malpaso. The government reterates its statement that the pass was occupied and a junction formed by General Navairo with his reinforcements without seeing the enemy. This seems confirmed by the fact that the government train is now in the pass which was formerly the insurrectors stronghold. The latter apparently returned to the face of a greatly superior force.

With their extreme mobility the in-

s been indicted, but none has been arrested.

Two more ministers, both residents of Green township, were indicted today. The court officials decline to give out their names. Each received \$5 for his vote. One young man confessed today that he sold out to his own father and received \$10 for his vote. Mrs. Sallie Winslow, of Peebles, pleaded guilty to selling the vote of her son, John. She said she was separated from her husband and is very poor and could not resist taking the money when it was offered to her. She was fined \$10, which was remitted. The son was fined \$5 and costs and disfranchised for five years. The woman's husband, it was learned, had also sold his vote.

The oldest voter in the county, a man of eighty-four, has been disfranchised.
